

Background

Overview

The RDNS and RALLY Healthcare program manual includes all programs under which RDNS and RALLY Healthcare provide nursing services.

It was originally developed with the support of the Department of Human Services to help ensure a standardised and consistent approach in relation to client access and services across RDNS and RALLY Healthcare.

Purpose

The purpose of the RDNS and RALLY Healthcare program manual is to:

- inform staff about individual programs, and
- ensure there is a standard and consistent approach for client access to RDNS and RALLY Healthcare services.

Feedback

This manual is reviewed regularly. If you have any comments relating to either existing programs or programs that are not listed, discuss them with your line manager, then contact the Executive Assistant to the General Manager/Director of Nursing South and East Regions, who will forward your query to the General Manager/Director of Nursing South and East Regions.
