

Can you afford the flu?

Protect your staff and business against the flu by providing vaccinations in your workplace.

RDNS is one of Australia's most respected nursing and healthcare providers. We know the debilitating impact flu can have on staff, and the heavy cost it can have on a business.

For just a few dollars* and a few minutes per employee, we can help protect your staff and your business against influenza.

So take the easy, affordable and protective step – talk to RDNS today to set up a staff flu vaccination program.

* An early bird discount is available. Minimum of 15 staff per business.

FLU FACTS

- The flu is highly contagious and can spread through the workplace quickly
- One little needle can prevent up to 2 weeks sick leave
- People can't get the flu from the vaccine
- Only the most current form of vaccination gives protection from the flu

Don't let the flu harm your business. Call RDNS today on
